**RE: FLORIDA DEPARTMENT OF TRANSPORTATION FOR FLORIDA
HIGHWAY BEAUTIFICATION COUNCIL GRANT**

RECOMMENDATION

It is recommended that the Mayor and City Council approve the attached resolution approving the submittal of grant applications and authorizing the City Manager and City Attorney to negotiate and execute grants, landscape construction and maintenance agreements between the city of North Miami and the Florida Department of Transportation (FDOT) for the Florida Highway Beautification Council grants.

BACKGROUND

The funds secured from the FDOT Florida Highway Beautification Council will be used to install approximately 100 medjool date palms along NE 125th Street from NE 6th Avenue to NE 10th Avenue, including dramatic lighting along with high quality benches and trash receptacles. This area is considered the City's downtown core and its visual appearance is critical to the economic health and identity of the City.

The total project is estimated at \$800,000 and the amount requested is \$400,000. The project will be broken up into phases in order to allow the City to apply for multiple grants with the same grantor. The selected trees, medjool date palms, are considered highly resistant to disease and drought and will grow to up to 70 feet. While expensive up-front, they are considered a long term investment with low maintenance costs. Matching funds will come from the general fund, surtaxes, and gas taxes.

Previous improvements, including the installation of patterned sidewalks and stainless steel bicycle racks, were completed using American Recovery and Redevelopment Act Funds. The trees will build on this foundation and become a statement to prospective businesses and customers that the City is committed to creating a pedestrian and bicycle friendly downtown core with successful cafes and retail businesses. Further

infrastructure investments, including crosswalks at major intersections, bulbouts, and treated on-street parking are planned for the future as the FDOT repaves NE 125th Street in 2015.
